

VectorAcademy

Workshops & Seminars with Inside Expertise

Welcome to the VectorAcademy

The VectorAcademy is the training department at Vector and offers a wide variety of workshops and seminars.

Our training team is made up of experienced engineers from development, sales and support who enjoy sharing their well-founded knowledge and abilities. In order to best fulfill your needs, we established a continual flow of information with our development departments. This ensures that current trends and developments are always incorporated into our training program.

What you can expect from us

We conduct our training courses in air-conditioned, spacious, modern and well-furnished classrooms that are equipped with numerous demonstration objects. Each classroom has seven comfortable learning or work stations with space for two participants each. The learning spaces are equipped with high-performance computers. The latest software for development, analysis, measurement and diagnostics as well as hardware designed for the exercises complete the working environment.

Extract of our Training Program

Workshops for Vector Tools and Solutions

- > AUTOSAR
- > CANalyzer: Workshops on CAN, Ethernet, FlexRay, IP, J1939, LIN
- > CANape
- > CANbedded
- > CANdelaStudio/Diagnostics
- > CANoe: Workshops on CAN, Ethernet, FlexRay, IP, ISO11783, J1939, LIN
- > Diagnostic Test with CANoe.DiVa
- > Diagnostic Test with Indigo
- > ODXStudio
- > PREEvision: Function Development, Hardware Design, Vector Certified PREEvision Engineer
- > ECU Tests with CANoe, vTESTstudio, VT System
- > vCDM | Vector Calibration Data Management
- > vSignalizer

Basic Seminars on the Topics

- > CAN/CAN FD, CANopen, Ethernet, FlexRay, IP, ISO11783, J1939, LIN, ODX, XCP

Seminar or Workshop

In the seminars you acquire theoretical fundamentals, while the workshops have a strong application-oriented approach with practical examples and exercises.

The number of students is limited to a maximum of 14 in the workshops. Each training station is shared by two workshop participants who work together during the exercises.

Modularity

Most of our training courses are composed of individual modules. You can also register for these modules independent of one another. Whether you are a beginner or an advanced student, this lets you set up a personal training program that is very much suited to your own individual needs and requirements.

Customer-Specific Trainings

We also offer training courses in which we can compose or extend the contents according to your expectations. Upon request, the training courses may be held at your company site. We would be glad to provide you with a quotation.

Benefits

- > You get detailed class documentation
- > You receive a certificate confirming your participation in our training course
- > Snacks during breaks and lunch are included with the course

Registration and Information

You can register online, via E-mail, Fax or regular mail. Registrations are accepted in the order in which they are received. If your reservation has been made successfully, we will return a confirmation of your registration.

If you have any questions or wish to register by phone, please contact Ms. Heller or Ms. Witulski:

- > Phone: +49 711 80670-5770
- > Fax: +49 711 80670-333
- > E-mail: academy@de.vector.com

Our website always offers the latest information on workshops, contents and scheduled dates.
